## Special Message June – "Life-Enrichment Programs at the Homes"

---

As summer begins, I want to highlight the life-enrichment programs that make the Masonic Homes such vibrant communities. From wellness classes and social gatherings to creative arts, faith services, and even pet-friendly residences, these programs reflect our belief that aging should be dignified, joyful, and fully lived.

These initiatives help residents stay active and connected. If you have not visited one of our campuses recently, I encourage you to do so and see firsthand how the fraternity's care is carried out every day.

If you know a brother or surviving spouse who would benefit from community, connection, or care, please contact Masonic Assistance to explore available options.
